## RoHS COMPLIANCE STATEMENT

September, 2006

Dear customer

This document is intended for internal use and serves as a statement of the ELVIN, spol. s r.o. strategy to meet the goals of WEEE-RoHS requirements of EC Directive 2002/EC/95.

All restricted materials listed below have been eliminated or reduced to the acceptable levels as stated in the EC Directive 2002/EC/95.

Lead  
Mercury  
Cadmium

Hexavalent Chromium  
Polybrominated Biphenyls  
Polybrominated Diphenyl Ethers

ELVIN, spol. s r.o. has implemented a structured and controlled procedure for restriction of using hazardous substance in our products. Of the 6 materials listed in the RoHS directive only lead was in the production of our products.

ELVIN, spol. s r.o. began producing products without lead in the year 2004. **All our new/current production is fully RoHS compliant.**

Effective April 2007 all packaging where lead free product (RoHS compliant) is contained will have a lead free or RoHS compliant indicator on them.

If you should have any questions, do not hesitate to contact our Purchasing department at 00421-43-5520 500-01.
